

Georgia Carpet Industries

Although second quality, shop or tavern grade materials are sold at a great discount from first quality products, there are several factors to take into consideration when purchasing such material. Please note that a product that is not first quality has a greater waste factor than average. When purchasing these materials one should take into account that these materials have a waste factor of 10% or greater. These products generally have a lesser warranty or no warranty. These products are designed to be installable but not cosmetically perfect. The issues exhibited in these materials could be as follows:

- **Knot holes, mineral streaks, worm holes, splits, checks and windshake (hardwood flooring)**
- **Flaws in finish such as peeling finish, chips, knicks, gouges, missing finish or rough finish**
- **Carpenter crayon or marker on boards or under finish**
- **Chipped or missing tongues, irregular corners to several boards in a carton or milling issues**
- **Off color**

As the purchaser of a seconds, shop or tavern grade material, I understand that this is not a returnable product to Georgia Carpet Industries unless the floor is deemed not installable. I also understand that no claims will be accepted on this material.
