

More than 1000+ Options !!

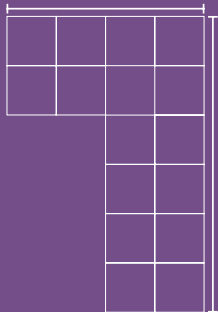

With Rug Revolution you have unlimited possibilities. Get inspired with some design ideas below:

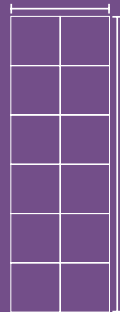

Square Form
You need 16 squares.

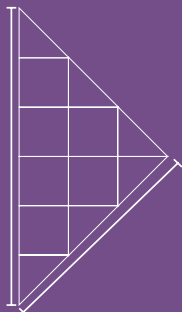

Individual Form
You need 8 squares.

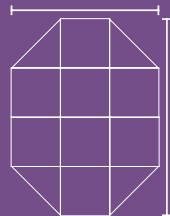

Square Form
You need 16 squares.

Individual Form
You need 8 squares.

Triangle Form
Squares can be used partly.
You need 9 squares.

Octagon Form
You need 10 squares.

Care + Cleaning Stain Treatment

MAINTENANCE

Quality maintenance is an important factor in the preservation of your investment.

- In order to insure proper care of the Rug Revolution, test the vacuum setting on an inconspicuous area to determine the proper setting but normally any beater bar should be on the furthest setting from the squares.
- Vacuum regularly. It is recommended to vacuum shag carpets against the pile to avoid flattening.
- Remove spills immediately.

SPOT CLEANING

One of the most crucial areas of carpet maintenance is acting quickly to remove spots and spills.

1. Remove Carpet Square from the Rug and take off Velcro backing.
2. Pre-test any spot removal solution in an inconspicuous area first.
3. Blot liquid with a dry white, absorbent cloth. Gently scoop up semi solids with a spoon and vacuum.
4. Apply the cleaning agent listed on the Stain Treatment chart to an absorbent towel and begin to BLOT up the spill. Do not Rub, BLOT only.
5. Work from the edges of the spill/spot to the center, to prevent from spreading.
6. Do not saturate with water.
7. Once the cleaning agent has removed the spot, BLOT excess moisture by applying pressure with a dry absorbent cloth or paper towel.

STAIN TREATMENT CHART

SPOT	A	B	C	D	E	F	G
Asfalt/ Tar	x						
Beer		x					
Food		x					
Butter/Shortening	x						
Candle Wax				x			x

Designed By You

RUG REVOLUTION OFFERS UNLIMITED POSSIBILITIES!!

- Any size available
- Individual design options
- Elements can simply be interchangeable
- Easy to transport
- A totally new kind of room design
- Re-design at anytime
- Easily replace single pieces
- Squares can be cut without any need to bind or seal

STEP 1.

Let your imagination design your rug however you want.

STEP 2.

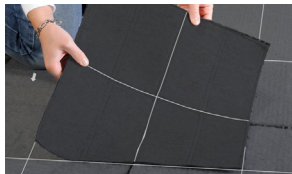

Flip each piece over in the position determined beforehand and remove all Velcro pieces.

STEP 3.

Turn each piece so that the arrows point in one direction.

STEP 4.

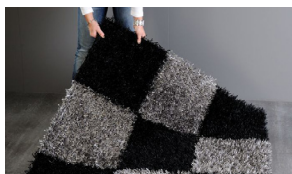

Keep the squares as close together as possible while connecting. Attach the Velcro pieces equally across the intersecting point of four squares, follow the white lines. Repeat this process and apply uniformly until just the perimeter of the rug is left. (For non-traditional shapes, vary the connections as appropriate.)

STEP 5.

Connect the perimeter of the rug by cutting the Velcro pieces in half and connect at the halfway point between two squares. Apply uniformly.

STEP 6.

With all squares now fully connected and covered with Velcro pieces, flip the rug over and enjoy your new Rug Revolution!

Make a statement with stripes! Use high contrast colors for bold looks

Sky is the limit with dreaming up shapes to inset for unique looks

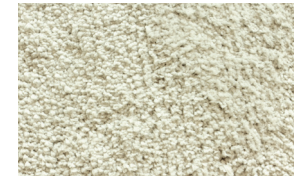

Play with color blocking options to bring design interest to your rug

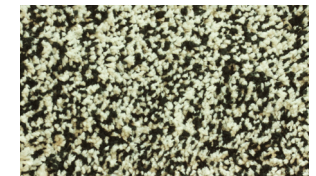

Designing with Rug Revolution Carpet squares is easy. Your imagination is the limit when creating a customized rug / carpet to your size and color specifications.

Shaggy Lavish Squares

Each **Rug Square** is 16" x 16" and is available in 12 fabulous colors, produced from 100% Micro Polyester for a dense lush pile.
