

Lifetime Anti-Shock Limited Warranty

Kraus Inc. warrants that this carpet will not will not generate static electricity in excess of 3 kilovolts (tested according to AATCC 134) during the useful of the carpet, provided that the carpet is properly installed and maintained indoors according to Kraus' maintenance and installation recommendations (see general warranty details below).

If after testing of the carpet according to AATCC 134, Kraus determines that the carpet has generated in excess of 3 kilovolts, and that all warranty conditions have been met, Kraus will compensate the owner on a pro rata basis for: (1) the original material cost of the carpet for the area directly affected, and (2) a reasonable installation allowance.

General Warranty Details

- **Warranty Coverage**

Kraus Inc. will repair or replace the portion of the carpet that does not perform according to our warranties. If all warranty conditions have been met, Kraus Inc. will compensate the owner pro rata for the original cost of the carpet for the directly affected area and a reasonable installation allowance. Reasonable re-installation costs are limited to \$5 per square yard or \$100 when the area is less than 20 square yards. Any charges for carpet disposal, new padding or moving furniture, equipment, etc. are the responsibility of the owner.

- **Installation**

The carpet must be installed in accordance with the Carpet & Rug Institute standard CRI-105. Seam sealing is mandatory on all installations. Power stretching is mandatory on all stretch-in installations.

Installation Recommendations:

- **Maintenance**

The carpet must be maintained and cleaned in accordance with Kraus' recommendations as outlined in "How to Maintain the Carpet in Your Home" by Kraus Inc. Spills should always be cleaned immediately and heavily trafficked areas should be vacuumed a minimum of twice per week, with less trafficked areas vacuumed at least once per week. Residentially installed carpet should be professionally cleaned at least every 12 to 18 months to maintain the appearance of the carpet, sooner if the carpet begins to appear soiled. Hot water extraction (steam cleaning) is Kraus' recommended cleaning method. Always allow carpet to dry thoroughly before exposing to traffic.

Maintenance Recommendations:
