

Remove most spots with just cold water

UniColor™ System

lifetime stain warranty

Our UniColor™ Lifetime Stain Warranty covers all commercial environments for most food and beverage spills. Spots can be removed, or we'll replace the carpet including labor.

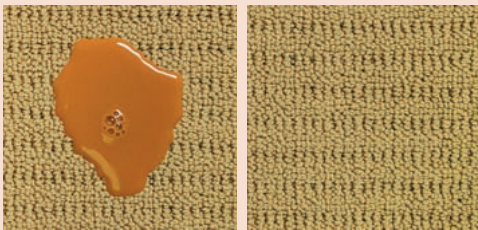

Some limitations apply; see full warranty text.

more stain resistant than ordinary solution dyed nylon

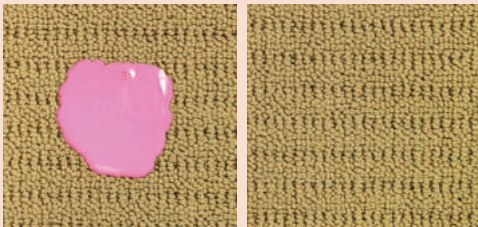

UniColor™ carpet achieves an exceptionally high degree of stain resistance (AATCC 175 rating exceeds 8.0, far higher than even typical solution dyed nylon). Therefore, most spots can be removed by just rinsing with cold water.

UniColor™ System

the environmental choice

- Prevents premature carpet replacement due to staining
- Reduces dependence on harsh cleaning chemicals
 - *Improves indoor air quality by reduced evaporation of cleaning agents*
 - *Reduces chemical deposits in the waste stream*

guaranteed side match

UniColor™ means uniform color. UniColor™ eliminates installation matching concerns. Unlike conventional carpet dyeing, no roll sequencing is required: the left side of the first roll matches the right side of the last roll in the production lot.

See our UniColor™ Side Match Warranty.

Conventionally Dyed Carpet

- Color may vary within dye lots
- Rolls must be installed in sequence
